The **MULTI**CONSOLE is your entrance into the MMC family with **PRIME**365 software.

With the integration of additional modules you can enlarge your **MULTI**CONSOLE to a central control unit in the O.R.**

Thanks to the new **PRIME**365 software solution the surgical team always has the maximum amount of clinical information at hand. **PRIME**365 arranges a more efficient flow of clinical data in and outside of the O.R. It is operated via touch and/or keyboard.

Your modular digital O.R. integration solution.

PRIME365

+ Viewing of additional video sources

+ Video-routing

+ Image processing and archiving

+ Communication and/or integration with HIS-/PACS systems

+ Video-streaming and/or video-conferencing
